### PROFILE

Front-end developer with experience building aesthetically pleasing and functional products. I am passionate about delivering amazing user experience.

### SKILLS

- React
- Redux
- JavaScript
- Firebase
- jQuery
- HTML
- CSS/SCSS
- Material UI
- Bootstrap
- Styled-Components
- Git/GitHub

### EXPERIENCE

#### Frontend Developer

GatePass, Mar 2021 - Present

- Work closely with the design team, product management, and development teams to create elegant, usable, responsive and interactive interfaces across multiple devices.
- Expand features, refine code, and improve processes, producing smoother operations and enhancing user engagement.

#### Frontend Developer

KloudHQ, Jul 2020 - Feb 2021

- Designed web applications according to client briefs and modified designs to meet changes in client specifications.
- Built stable and maintainable codebases using React, modern CSS techniques and JavaScript libraries.
- Worked in team environments that used Agile methodologies and tools.
